SOFTWARE & ORDERING

McKenna EASY ORDER

McKenna Easy Order is our ROES based system and is great for print orders, specialty product ordering, and is complete with drag 'n' drop templates.

CamLynx

Underclass photographers have CamLynx software available to them to merge data and images on large shoots.

ADVANTAGE PRICING

Quantity discounts YOU control! Your discount is based on the total number of same sized items no matter how many different images you use. (i.e. 40 5x7s of image 'smith.jpg' + 75 5x7s of 'taylor.jpg' =115 total 5x7s. This takes your final 5x7 print price from $1.08 per print to $0.69.) See page 10 for details.

01 PRINTS & FINISHING

Color consistency and quality is what makes our prints stand out from the rest. We only use professional printers and Fuji paper available in Luster, Metallic and Silk. We offer photographic prints in a variety of sizes ranging from wallets to 30x72.

We also provide finishing services for your prints including retouching, color correction, texture and spray. Choose from our large selection of mount options to add value to your prints. Frameless mount options like standout gallery mounts save you time and money as they arrive ready to present to clients.

02 METAL

Images printed directly on finished aluminum offers a truly unique presentation. We offer the lowest price on ready to hang metal with sizes up to 38x58. Our ChromaLuxe™ metal is available in gloss (brilliant whites, high gloss), semi-gloss (similar to gloss, less glare), matte (satin like, minimal glare) and metallic (clear base, metal shows through).

Metal Floats (shown on opposite page) feature a raised aluminum plate, complemented by a custom background on luster or metallic photographic paper. Metal shapes are a fun contemporary look perfect for babies, children, and family markets. Take your images to a new dimension with our freestanding metal curves.

To clean your metal print, use glass cleaner and a clean rag. Due to the nature of aluminum, tiny bumps and imperfections are inevitable in the final product yet do not detract from the unique beauty of the metal print.
